Freshman Picnic

Before the beginning of the 2019-2020 school year, the incoming freshmen attended a picnic. At this event, the students met their classmates and a number of upperclassmen that they would see in the hallways. With fun games, lunch, and small groups, the students enjoyed the fun, memorable afternoon.

Catholic Schools Week

Father Rich Adam celebrated All Schools Mass with the local grade schools.

Religion

Theology classes are taught by Mrs. Imborek, Mother Susan, Sister Anthony, and Father Jake. The Religion Department believes students will more easily develop integral lives of faith in an atmosphere of trust, humble openness to the truth, and inclusivity. Rather than approaching religion primarily as an academic subject, the members of the Religion Department invite students to cultivate a life of prayer and virtue, and teachers strive to teach through their lives.

Psychology

This course is designed as an introduction to the principles of psychology. Students study the dynamics of human behavior, including human development, creativity, intelligence, perception, and motivation.

Social Studies

The Social Studies Department believes in a program of study that emphasizes the importance of deep conceptual understanding and a solid background in both World and U.S. History. Freshmen typically enroll in World Civilizations, which provides foundational knowledge and understanding of human political, cultural, and economic progress. U.S. History then takes a modern view of our nation's history, and Government explains and illuminates the processes by which citizens take an active role in the American system of governance.

Anatomy / Biology

The Science Department believes students learn best when dedicated, enthusiastic teachers present them with real-world questions, interesting subject matter, and challenging, hands-on coursework. As a team, science teachers at Assumption develop organized, streamlined, and highly relevant curriculum designed to encourage students to think critically, solve problems, develop inquiry-based lab techniques, and ultimately, apply evidence and scientific principles to provide explanations and make real-world connections.

English

Students read a wide variety of works designed to foster a love of literature and language to illuminate both the shared concerns and the differing styles of writers. The amazing teachers in the English department are Mrs. Luton, Ms. McNamara, Mrs. Smyth, Mrs. McGuire, and Ms. Smith. They teach students critical thinking skills. They also prepare students for written and oral communication for higher-level classes in high school as well as for college/after high school. Thank you English Department!

PE

The Assumption High School Physical Education Department believes in building a foundation of knowledge and skills that will support students in developing healthy and active lifestyles. Students and teachers work together to achieve shared goals in an environment that encourages inclusion, communication, teamwork, and cooperation. Assumption Physical Education teachers understand the importance of motivation and student comfort, and they strive to ensure that students set meaningful goals, feel driven to participate and succeed, and feel included and supported by both instructors and peers.

Chemistry

Students will study basic laboratory science skills, atomic theory and the mole concept, kinetic theory, atomic structure, acid-base theories, and principles of chemical reactions. At their first meeting, the club received an overwhelming response from the student body. An overwhelming amount of students showed up: freshmen, sophomores, juniors, and seniors. Hay Day club brought Assumption together... thanks,

FCA

Fellowship of Christian Athletes had several events this year, such as the 5th quarter (an event after the boy's basketball game), collected cans for the can drive, had a "Thankmas" meal (thanks giving and Christmas), and several bible studies at peoples houses. Red Ribbon Week

pizza party

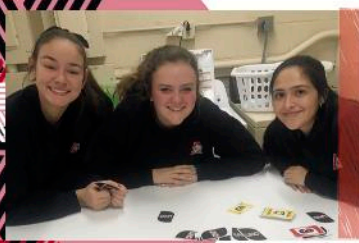

SADD has done many activities this year: Unplugged, Mental Health Week, Red Ribbon Week. Their goal is to help students make the best possible decision for themselves as well as give guidance on how to deal with stress and how to cope with it.

Unplugged

Finals can be extremely stressful on students, so Assumption's Students Against Destructive Decisions hosts an event called Unplugged. During Unplugged, students can relax and take a break from school and studying. There are many fun activities offered.

Activities and games are hosted in classrooms throughout the school. The cafeteria offers cookies and smiles. Located in the gym are fun games and activities. This year, a new activity was introduced by Mrs. Imborek. She brought small rocks for students to paint, and it was a very popular activity.

In Sister Anthony's room, she and her mother help students make paper snowflakes. With their knowledge and smiles, they taught students how to fold the paper and cut it into a beautiful, unique design.

Students rush to the cafeteria to decorate a sugar cookie with frosting and colorful sprinkles.

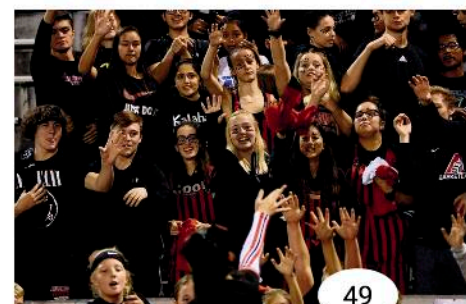

One of the best parts of Unplugged is therapy dogs. These dogs allow students to destress.

Fun Fact: therapy dogs lower student's blood pressure, improve cardiovascular health, release endorphins (oxytocin) that have a calming effect, and the act of petting produces an automatic relaxation response so students can get relaxed right before finals.

Enchanted

April

This year's fall play was Enchanted April. It was about Lotty Wilton (Caroline Seiren), a sweet-natured housewife, and Rose Arnott (Madeline Murphy), a house-wife as well, and their sudden sense of adventure. Them and two other women, Caroline Bramble (Kealan Stevens) and Mrs. Graves (Anna Bourke) go to stay in a castle in San Salvatore. As the months pass, not only does the sadness and grief wash away, but they are filled with hope. The Assumption Knight Players did a wonderful job presenting this story.

Knights Place 4th at State

The 2019 Knights were vying to become the school's first to capture three straight titles.

"It shows a lot of people how hard this really is," said Thissen, whose program is 38-6 all-time in state tournament games. "Every team up here knows how to win games and have been in situations to get here. I'm proud of our guys. It has been one hell of a run."

"It stings to lose this game, but at the same time, hats off to our seniors."

DRIVE-THRU TESTING

To help contain the coronavirus, drive-thru testing sites popped up throughout the country. If an individual thought they might have the coronavirus, they were instructed to call their healthcare provider, who would then send them to a drive-thru clinic to be tested.

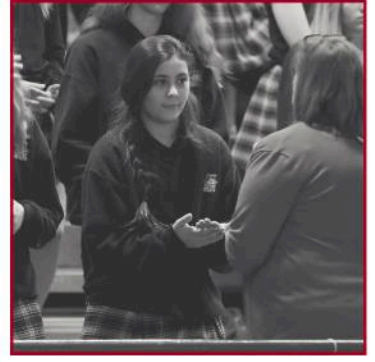

TRAVEL RESTRICTIONS

Airports were one of the first to be hit hard by COVID-19. Hand sanitizer stations flooded check lines and some travelers even resorted to face masks for extra protection. Many flights were cancelled and travel outside the United States was restricted.
