Building on our Faith
CHAPEL EXPANSION PROJECT

Another milestone reached—the concrete floor is now in place!

A chapel is more than walls and windows. It is the heart of a Catholic school—a place where students can step away from the noise, ask hard questions, celebrate joys, and find peace in God's presence. As we expand our chapel, we are building something that will reach far beyond today. Generations of students will pray here, seek guidance here, celebrate Mass here, and discover who God is calling them to become.

Every gift, every prayer, every effort put into this project helps create a place where faith can grow and lives are changed.

May this chapel remind us that while we build with our hands, God is building something even greater in the hearts of our students.
